Potential Health Effects

Primary Routes of Exposure Skin contact.

Acute Toxicity

Eyes Irritating to eyes.

Skin Non-irritating during normal use. Prolonged or repeated contact may dry skin and cause

irritation.

InhalationInhalation of vapors in high concentration may cause irritation of respiratory system.IngestionNot an expected route of exposure. Ingestion may cause gastrointestinal irritation, nausea,

vomiting and diarrhea. May cause central nervous system depression.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Name	CAS-No	Weight %
Isopropyl Alcohol 70% v/v	67-63-0	70
Water 30% v/v	7732-18-5	30

4. FIRST AID MEASURES

Eye Contact Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. If

symptoms persist, call a physician.

Skin Contact In the case of skin irritation or allergic reactions see a physician.

Inhalation Move to fresh air. Apply artificial respiration if victim is not breathing. Administer oxygen if

breathing is difficult. If symptoms persist, call a physician.

Ingestion Call a physician or Poison Control Center immediately. Rinse mouth. Drink plenty of water. Do

NOT induce vomiting. If symptoms persist, call a physician.

Notes to Physician Treat symptomatically. Effects of exposure (inhalation, ingestion or skin contact) to substance

may be delayed.

Protection of First-aiders Ensure that medical personnel are aware of the material(s) involved, and take precautions to

protect themselves.

5. FIRE-FIGHTING MEASURES

Flammable Properties HIGHLY FLAMMABLE: Will be easily ignited by heat, sparks or

flames. Containers may explode when heated. Many liquids are

lighter than water.

Flash Point 22C / 71F

Suitable Extinguishing Media

Use extinguishing agent suitable for type of surrounding fire. Dry

chemical or CO₂, water spray, fog or alcohol-resistant foam. Move

containers from fire area if you can do so without risk.

Flammable Liquid: I-B

· Irritant: Liquid

Unsuitable Extinguishing Media CAUTION: All these products have a very low flash point. Use of

water spray when fighting fire may be inefficient. Do not use a solid

water stream as it may scatter and spread fire.

Hazardous Combustion Products Carbon oxides.

Explosion Data

Uniform Fire Code

Sensitivity to Mechanical Impact

Specific Hazards Arising from the Chemical Flammable. Vapors may form explosive mixtures with air. Vapors

may travel to source of ignition and flash back. Most vapors are heavier than air. They will spread along ground and collect in low or confined areas (sewers, basements, tanks). Keep product and empty container away from heat and sources of ignition. Risk of ignition.

Sensitivity to Static Discharge Yes.

Protective Equipment and Precautions for Firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Move containers from fire area if you can do so without risk.

NFPA Health Hazard 1 Flammability 3 Stability 0 Physical and Chemical Hazards - None

6. ACCIDENTAL RELEASE MEASURES FOR INDUSTRIAL SETTING

Personal Precautions ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). All

equipment used when handling the product must be grounded. Do not touch or walk through spilled material. Stop leak if you can do it without risk. Take precautionary measures against

static discharges. Use personal protective equipment. Avoid contact with eyes.

Environmental Precautions Prevent further leakage or spillage if safe to do so. Prevent entry into waterways, sewers,

basements or confined areas.

Methods for Containment Prevent further leakage or spillage if safe to do so.

Methods for Cleaning Up

Use personal protective equipment. Damp up. Absorb with earth, sand or other non-

combustible material. Use clean non-sparking tools to collect absorbed material. Keep in suitable and closed containers for disposal. Clean contaminated surface thoroughly.

Other Information Water spray may reduce vapor, but may not prevent ignition in closed spaces.

7. HANDLING AND STORAGE FOR INDUSTRIAL SETTING

Handling Ensure adequate ventilation. Keep away from open flames, hot surfaces and sources of

ignition. Take precautionary measures against static discharges. Wear personal protective equipment. Do not breathe vapors or spray mist. Avoid contact with skin, eyes and clothing.

Storage Keep in properly labeled containers. Keep away from heat and sources of ignition. Keep

containers tightly closed in a cool, well-ventilated place.
