1 Identification of the substance and manufacturer Trade name: **TXI WHITE** Product code: 80-1130 Recommended use: Paint and coatings application. Any that differs from the recommended use. Uses advised against: Manufacturer/Supplier: Kimball Midwest 4800 Roberts Road Columbus, OH 43228 800-233-1294 www.kimballmidwest.com ChemTrec: 800-424-9300 **Emergency telephone number:** 2 Hazard(s) identification Classification of the substance or mixture Flammable Aerosols 1 H222 Extremely flammable aerosol. Gases under Pressure - Liquefied gas H280 Contains gas under pressure; may explode if heated. Eye Irritation 2A H319 Causes serious eye irritation. Sensitization - Skin 1 H317 May cause an allergic skin reaction. Carcinogenicity 2 H351 Suspected of causing cancer. Route of exposure: Inhalation. Specific Target Organ Toxicity - Single Exposure 3 H336 May cause drowsiness or dizziness. Specific Target Organ Toxicity - Repeated Exposure 2 H373 May cause damage to organs through prolonged or repeated exposure. Additional information: **GHS Hazard pictograms** GHS02 GHS04 GHS07 GHS08 Signal word Danger Extremely flammable aerosol. Hazard statements Contains gas under pressure; may explode if heated. Causes serious eye irritation. May cause an allergic skin reaction. Suspected of causing cancer. Route of exposure: Inhalation. May cause drowsiness or dizziness. May cause damage to organs through prolonged or repeated exposure. Obtain special instructions before use. **Precautionary statements** Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Do not spray on an open flame or other ignition source. Pressurized container: Do not pierce or burn, even after use. Do not breathe dust/fume/gas/mist/vapors/spray. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. Wear protective gloves/protective clothing/eye protection/face protection. IF INHALED: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a poison center/doctor if you feel unwell. Specific treatment (see on this label). If eye irritation persists: Get medical advice/attention. Store in a well-ventilated place. Store locked up. Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F. Dispose of contents/container in accordance with local/regional/national/international regulations. **3 Composition/information on ingredients** Chemical characterization: Mixtu

Chemical characterization: Mixtures Chemical Description: This product is a mixture of the substances listed below with nonhazardous additions.					
	Dangerous components:				
67-64-1	Acetone	15-25%			
74-98-6	propane	15-25%			
13463-67-7	/ titanium dioxide	10-15%			
106-97-8	n-butane	5-10%			
	Isobutyl Acetate	5-10%			
	/ barium sulfate	5-10%			
2807-30-9	Glycol Ether EP	1-5%			
	butyl acetate	1-5%			
107-87-9	Methyl Propyl Ketone	1-5%			
108-10-1	methyl isobutyl ketone	1-5%			
		(Contd. on page 2)

Hygienic pro	otection:	Immediately remove all soiled and contaminated clothing.
		Wash hands after use.
		Avoid contact with the eyes and skin. Do not eat or drink while working.
Breathing e	auipment:	A respirator is generally not necessary when using this product outdoors or in large open areas. In
	4	cases where short and/or long term overexposure exists, a charcoal filter respirator should be worn.
	41	If you suspect overexposure conditions exist, please consult an authority on chemical hygeine.
Hand protect	ction:	Nitrile gloves. The glove material must be impermeable and resistant to the substance.
Eye protecti	ion:	Tightly sealed goggles

9 Physical a	nd chemical properties	
Appearance		Aerosol.
Odor:		Aromatic
Odor thresh	old:	Not determined.
pH-value:		Not determined.
Melting poir	nt/Melting range	
Boiling poin		-44 °C (-47.2 °F)
Flash point:		-19 °C (-2.2 °F)
	ty (solid, gas):	Extremèly flammable.
Decomposit	tion temperature:	Not determined.
Auto ignitin	g:	Product is not self-igniting.
Danger of e	xplosion:	In use, may form flammable/explosive vapour-air mixture.
Lower Explo	osion Limit:	1.7 Vol %
Upper Explo	osion Limit:	10.9 Vol %
Vapor press		Not determined.
Relative Der		Between 0.77 and 0.85 (Water equals 1.00) Not determined.
Vapor densi Evaporation		Not applicable.
Partition co	efficient: n-octonal/water	: Not determined.
Solubility:		Not determined.
Viscosity:		Not determined.
Water:		0.0 %
10 Stability ar	nd reactivity	
Reactivity:		Stable at normal temperatures.
		(Contd. on page 4)

Conditions to avoid: Do not allow can to exceed 120 degrees Fahrenheit. Do not warehouse in subfreez imperatures. Chemical stability: Not fully evaluated. Possibility of hazardous reactions: No dangerous reactions known. Incompatible materials: No dangerous reactions in ob dangerous reactions. No dungerous decomposition products known. 15 Regulatory information						
SARA Section 355 (extremely ha	SARA Section 355 (extremely hazardous substances):					
None of the ingredients in this pro-	duct are listed.					
SARA Section 313 (Specific toxi	ic chemical listings):					
7727-43-7 barium sulfate						
108-10-1 methyl isobutyl ketone	;					
Toxic Substances Control Act						
(TSCA): Canadian Domestic Substances	All hazardous ingredients are found on the inventory list of substances.					
(DSL):	All ingredients are listed or exempted.					
Consumer Product Safety						
Comission (CPSC):	This product complies with 16 CFR 1303 and does not contain more than 90 ppm of lead.					
California Proposition 65 chemicals known to cause cancer:						
13463-67-7 titanium dioxide						
108-10-1 methyl isobutyl keton	e					
100-41-4 ethyl benzene						
Prop 65 chemicals known to cause birth defects or reproductive harm:						
108-10-1 methyl isobutyl ketone						
EPA:						
67-64-1 Acetone	1					
110-19-0 Isobutyl Acetate	D					
7727-43-7 barium sulfate	D, CBD(inh), NL(oral)					
108-10-1 methyl isobutyl ketone	· I
