## **1** Identification

#### - Product identifier

- Trade name: Torque-Lok High Strength, High Temperature Threadlocker Stick

- Other means of identification

- **Part number:** 80-2193

- Application of the substance / the mixture Thread Locking

## - Details of the supplier of the safety data sheet

- *Manufacturer/Supplier:* Kimball Midwest 4800 Roberts Road Columbus, OH 43228 Tel: (800) 233-1294

- *Information department:* Product Safety Department - *Emergency telephone number:* United States: 1-800-424-9300 International: +1-703-527-3887

#### 2 Hazard(s) identification

#### - Classification of the substance or mixture

GHS08 Health hazard

H351 Suspected of causing cancer.

Safety Data Sheet acc. to OSHA HCS

Specific target organ toxicity (repeated exposure) 2 H373 May cause damage to organs through prolonged or repeated exposure.

Carcinogenicity 2

Skin irritation 2H315 Causes skin irritation.Eye irritation 2AH319 Causes serious eye irritation.Sensitization - skin 1H317 May cause an allergic skin reaction.

- Label elements

- GHS label elements The product is classified and labeled according to the Globally Harmonized System (GHS). - Hazard pictograms

- Signal word Warning

#### - Hazard-determining components of labeling:

(1-methylethylidene)bis(4,1-phenyleneoxy-2,1-ethanediyl) bismethacrylate dimethylbenzyl hydroperoxide Cumene 1,1'-(1,3-phenylene)bis-1H-pyrrole-2,5-dione methacrylic acid, monoester with propane-1,2-diol 2-Butenedioic acid (2Z)

2'-phenylacetohydrazide

# - Hazard statements

H315 Causes skin irritation.

H319 Causes serious eye irritation.

H317 May cause an allergic skin reaction.

H351 Suspected of causing cancer.

H373 May cause damage to organs through prolonged or repeated exposure.

#### - Precautionary statements

- P201 Obtain special instructions before use.
- P202 Do not handle until all safety precautions have been read and understood.
- P260 Do not breathe dust/fume/gas/mist/vapors/spray.
- P261 Avoid breathing dust/fume/gas/mist/vapors/spray
- P264 Wash thoroughly after handling.
- P272 Contaminated work clothing must not be allowed out of the workplace.
- P280 Wear protective gloves/protective clothing/eye protection/face protection/hearing protection.
- P280 Wear protective gloves.
- P280 Wear eye protection / face protection.

## Trade name: Torque-Lok High Strength, High Temperature Threadlocker Stick

(Contd. of page 1) P302+P352 If on skin: Wash with plenty of water. P305+P351+P338 If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P308+P313 IF exposed or concerned: Get medical advice/attention. Get medical advice/attention if you feel unwell. P314 P362+P364 Take off contaminated clothing and wash it before reuse. P332+P313 If skin irritation occurs: Get medical advice/attention. P333+P313 If skin irritation or rash occurs: Get medical advice/attention. Specific treatment (see on this label). P321 P337+P313 If eye irritation persists: Get medical advice/attention. P405 Store locked up. P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

Other hazards

## - Results of PBT and vPvB assessment

- PBT: Not applicable.

- vPvB: Not applicable.

- Classification according to (d)(1)(ii) of § 1910.1200

The SDS issuer does not object to the classifications provided by importers or manufacturers of precursor products.

#### - Hazards not otherwise classified

There are no adverse physical or health effects known that are not covered by the hazard classes of the Hazard Communications Standard.

#### 3 Composition/information on ingredients

#### - Chemical characterization: Mixtures

Description: Mixture of the substances listed below with nonhazardous additions.

CAS: 24448-20-2	(1-methylethylidene)bis(4,1-phenyleneoxy-2,1-ethanediyl) bismethacrylate	45 - 70%	
5, 10. 2 1110 20 2	Skin irritation 2, H315; Eve irritation 2A, H319; Sensitization - skin 1B, H317		
CAS: 3006-93-7	1,1'-(1,3-phenylene)bis-1H-pyrrole-2,5-dione	7 – 13%	
	Acute toxicity - inhalation 1, H330; Acute toxicity - oral 4, H302; Sensitization - skin 1A, H317		
CAS: 27813-02-1	methacrylic acid, monoester with propane-1,2-diol	5 – 10%	
	Eye irritation 2A, H319; Sensitization - skin 1, H317		
CAS: 80-15-9	dimethylbenzyl hydroperoxide	0.5 – 1.5%	
	Self-reactive substances and mixtures - Type F, H242; Organic peroxides - Type E, H242; Acute toxicity - inhalation 3, H331; Specific target organ toxicity (repeated exposure) 2, H373; Aspiration hazard 1, H304; Skin corrosion 1B, H314; Eye damage 1, H318; Acute toxicity - oral 4, H302; Acute toxicity - dermal 4, H312; Specific target organ toxicity (single exposure) 3, H335; Flammable liquids 4, H227

#### - Description of first aid measures

#### - General information:

Immediately remove any clothing soiled by the product.

Remove breathing apparatus only after contaminated clothing have been completely removed.

In case of irregular breathing or respiratory arrest provide artificial respiration.

#### - After inhalation:

Supply fresh air or oxygen; call for doctor.

- In case of unconsciousness place patient stably in side position for transportation.
- Supply fresh air; consult doctor in case of complaints.
- After skin contact: Immediately wash with water and soap and rinse thoroughly.
- After eye contact: Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.
- After swallowing: If symptoms persist consult doctor.

- Most important symptoms and effects, both acute and delayed No further relevant information available.

- Indication of any immediate medical attention and special treatment needed No further relevant information available.

# 5 Fire-fighting measures

#### - Extinguishing media

#### - Suitable extinguishing agents:

CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

- Special hazards arising from the substance or mixture No further relevant information available.

#### - Advice for firefighters

- **Protective equipment:** Mouth respiratory protective device. Wear self-contained respiratory protective device. Wear fully protective suit.

6 Accidental release measures

- Personal precautions, protective equipment and emergency procedures Ensure adequate ventilation

Wear protective clothing.

- Environmental precautions: Do not allow to enter sewers/ surface or ground water.

- Methods and material for containment and cleaning up: Dispose contaminated material as waste according to section 13. Ensure adequate ventilation.

Dispose of the collected material according to regulations.

- **Reference to other sections** See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

#### 7 Handling and storage

#### - Precautions for safe handling

Thorough dedusting. Ensure good ventilation/exhaustion at the workplace. Open and handle receptacle with care. No special precautions are necessary if used correctly. - Information about protection against explosions and fires: Keep respiratory protective device available.

#### - Conditions for safe storage, including any incompatibilities

#### - Storage:

- Requirements to be met by storerooms and receptacles: No special requirements.
- Information about storage in one common storage facility: Not required.
- Further information about storage conditions:
- Keep receptacle tightly sealed.

Store in cool, dry conditions in well sealed receptacles.

- Specific end use(s) No further relevant information available.

#### 8 Exposure controls/personal protection

#### - Control parameters

#### - Components with limit values that require monitoring at the workplace: At this time, the other constituents have no known exposure limits.

#### CAS: 80-15-9 dimethylbenzyl hydroperoxide

- Skin TLV Long-term value: 25 mg/m
- TLV Long-term value: 25 mg/m<sup>3</sup>, 5 ppm A3

- Additional information: The lists that were valid during the creation were used as basis.

#### - Exposure controls

- Appropriate engineering controls No further data; see section 7.

#### - Personal protective equipment:

- General protective and hygienic measures: Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work.

## Trade name: Torque-Lok High Strength, High Temperature Threadlocker Stick

(Contd. of page 3)

Store protective clothing separately. Avoid contact with the eyes and skin.

# - Breathing equipment:

Not required.

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use respiratory protective device that is independent of circulating air.

- Protection of hands:

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

### - Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

- Nitrile rubber. NBR - Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed. - Eye protection: Required use of safety glasses

- Body protection: Protective work clothing

## 9 Physical and chemical properties

Information on basic physical and chemical proper	ties
- General Information	
- Physical state	Solid
- Color:	Red
- Odor:	
- Odor. - Odor threshold:	Mild
	Not determined.
- Melting point/Melting range:	
- Boiling point/Boiling range:	≥ 170 °C (≥ 338 °F)

## 12 Ecological information

#### - Toxicity

- Aquatic toxicity: No further relevant information available.
- Persistence and degradability No further relevant information available.
- Bioaccumulative potential No further relevant information available.
- Mobility in soil No further relevant information available.
- Results of PBT and vPvB assessment
  - PBT: Not applicable.
  - vPvB: Not applicable.
- Other adverse effects

#### - Additional ecological information:

#### - General notes:

Water hazard class 3 (Self-assessment): extremely hazardous for water

Do not allow product to reach ground water, water course or sewage system, even in small quantities.

Danger to drinking water if even extremely small quantities leak into the ground.

## 13 Disposal considerations

## - Waste treatment methods

- Recommendation: Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

#### - Uncleaned packagings:

- Recommendation: Disposal must be made according to official regulations.
- Recommended cleansing agent: Water, if necessary with cleansing agents.
